Areas of Business

Renewable energy-related products,
environment-related products, electrical devices

Major Products / Technologies / Services

Large tanks, wind turbine towers.
Robotics development.

Business Conduct in the Field of Renewable Energy

Introduction

AIKAWA ENGINEERING has designed, manufactured and installed various products for thermal power plants, nuclear power plants and other plants related to environment and water treatment since its inauguration.

To pursue the success in renewable energy industry, AIKAWA ENGINEERING has recently expanded its business to a global market, rushing out of a small framework.

Track Record

Wind turbine towers are AIKAWA ENGINEERING's primary products. We have manufactured medium size 300kw wind turbine towers and small size 20kw wind turbine towers, delivered 10 towers for a domestic market and 2 for an international market in the past 3 years.

AIKAWA ENGINEERING will continuously be your reliable manufacturer, delighted to take orders for medium size 300kw and small size 20kw wind power turbine towers.

Areas of Interest

Photovoltaic	Smart Community
Wind Power	Ground-Source Heat
Hydro Power	Storage Batteries
Biomass	Hydrogen Energy
Others (Robotics development)	

Suggestions & Proposals

Wind power turbine towers AIKAWA ENGINEERING offers:

Large size, above 2000kw

Medium size, below 300kw

Small size, below 20kw

For offshore wind power turbine, above 5000kw
